

Access Control Software

Access Pro Software system and this programme allows you to manage large numbers of doors and users. With this software you can manage up to 4 million users and 64,000 doors.

The software will enable you to manage the key cards that put simply, manages the system. Access control information can be written directly to the key cards and the door systems can be managed by managing the cards.

With the software in place you can quickly make changes to authorisation levels, access times etc and ensure that your access control system stays up-to date.

A user friendly design and advanced features make Access Pro Software the ideal solution for managing your access control systems. It allows you to simply and quickly manage standalone and online access devices from one central programme.
