

Student well-being and how to keep them coming to class

Latest figures show **STUDENT DROPOUTS** have risen for the second year in a row

Most significant is the rise in first-year dropout rates for young first-degree entrants from the most **DISADVANTAGED AREAS**

The **INCREASE IN TUITION FEES** in the UK in 2012-13 may have had some influence on students' decision about whether to stay in higher education

How can you stop these figures from rising?

By taking care of student well-being & how it affects their SUCCESS

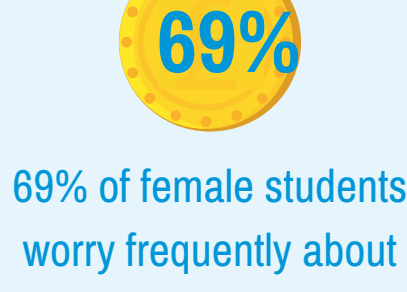

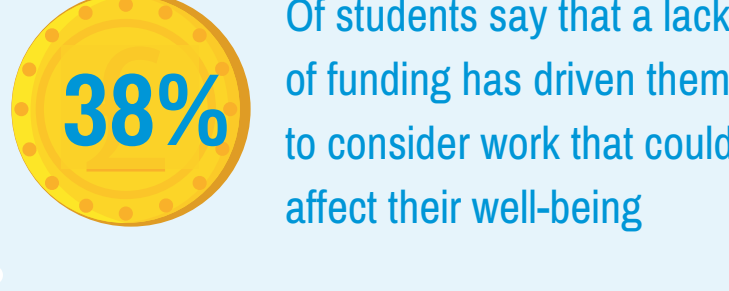

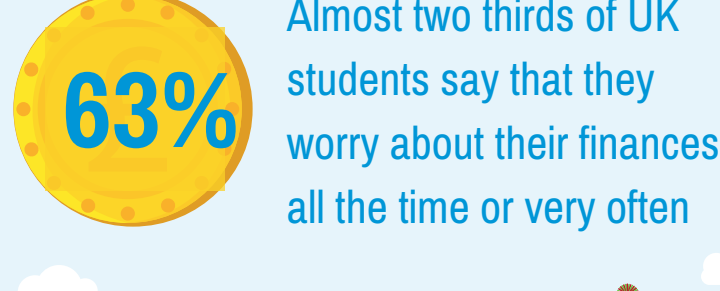

WELL-BEING includes positive emotions and moods such as contentment, happiness, satisfaction with life, fulfillment and positive functioning and is absent of negative emotions such as depression and anxiety.

SO what can affect a student's emotions and well-being and ultimately cause them to drop-out of their studies?

Finances

Students worrying about **FINANCES** to such an extent that it begins affecting their mental health

Student Pressures

What are the pressures of being a modern student?

As well as adapting to a new environment and meeting new people, there are other pressures that can contribute to well-being

Mental Health

DID YOU KNOW...

2015 NUS survey revealed that **78%** of students experienced mental health issues during the previous year. And for **33%** of those questioned this included suicidal thoughts.

SO what can you do to help this 'Mental health crisis' ?

Attendance & Engagement monitoring software is the answer to happy students!

Key Benefits

IMPROVES ENGAGEMENT AND ATTENDANCE
A key tool in your student retention strategy, helping to improve graduation rates by reducing drop outs and the associated loss of tuition fees and other student revenue streams

REDUCES ADMINISTRATOR WORKLOAD
Moving from paper based registers to an automated system allows registers to be taken quickly and with minimum disruption, no more uploading and analysing spreadsheets anymore

EASY TO INTEGRATE
The solution is designed to offer real time integration into existing systems. This can be done in a variety of ways including using an API or via controlled csv file imports.

LOW CARBON FOOTPRINT
As a cloud solution there is no server hardware required. As a cloud product power and energy are used as required by the application so can be turned up and down to suit needs.

INSIGHTS INTO STUDENT ATTENDANCE
Using intelligent reporting further enables detailed drilling down into student attendance and activity to provide actionable insights to help with strategic planning.

LATEST TECHNOLOGIES
There are options to use the latest technology which allows students to record attendance via iBeacons or mobile phone apps

Key Features

REAL TIME ALERTS
Easily set red flags for non-attending students so early interventions can take place to encourage better attendance and retention

MEETS UKVI - TIER 4
Ensure you meet the requirements of UK immigration laws relating to overseas students

POWERFUL DASHBOARDS
With one central management dashboard, it is easy to get a quick and clear overview of your students attendance and engagement levels

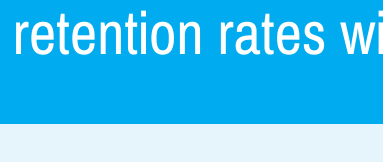

RECORD VIA MULTIPLE METHODS
Attendance can be captured via a variety of methods including; online registration, bar code scanning, mobile phone, QR codes or iBeacons

POWERFUL REPORTING
Attendance and absence management report is more efficient and effective via SQL reporting capabilities

CURRICULUM PLANNING
Offering curriculum planning, timetabling and schedule management tools or can be integrated in to a wide range of 3rd party applications

Spot potential dropouts early and support your students well-being before they are struggling - It's really simple with **ATTENDANCE AND ENGAGEMENT SOFTWARE** and the organisation benefits too - Better retention rates with no loss of tuition fees and happy engaged students
