

Cloud based Access Control

Easy, secure cloud-based wireless access control solution with real time powerful functionality at the click of a mouse.

A truly cost effective access control solution that can be managed via a laptop or mobile app. With real time reporting to the mobile app control and convenience are combined. Access is managed in the cloud 24/7 if needed. Doors can be remotely opened or locked, users rights can be changed, fobs can be blacklisted all by the press of a button.

With an attractive pay per user subscription model and no software installation needed, providing better functionality and performance than many mechanical solutions, a state of the art access control solution is now available to all size organisations.

KEY BENEFITS

- Simple and easy to use, manage and extend
- State of the art solution for less investment
- Highly secure
- 24/7 availability
- Powerful management information is easy to extract
