

HP Embedded

Integrated Print & Copy Software

i n v e n t

Control print, copy and scan output directly from the touch screen of your HP devices. Simple to use, the software enables real-time integration between Pcounter and HP multi-function printers (MFPs). Authenticate by user name +password, ID card, short ID/Pin or biometrics with support for secure print, pull printing, copier and scan accounting and cost centre allocation.

EMBEDDED SOFTWARE

Enables convenient secure release at the device improving the speed and quality of the user experience and facilitates rationalisation of devices. Piles of waste paper are evidence to the fact that many print jobs are never collected. By enforcing secure release, jobs are not printed unless the user authenticates at the device achieving **typical cost savings in the region of 30%. Integrating your print, copy and scan accounting centralises** management and reporting, greatly reducing the burden of administration. **The result – dramatic cost and environmental savings.**

KEY FEATURES

- Direct integration between HP MFPs and Pcounter
- Pull printing – securely release print jobs at any MFP
- Retain job - user may chose to keep print jobs held in the queue for re-print
- Photocopy accounting - real-time control and accounting of copy activity
- Scan2Me - account for scanning and auto populate users email or home folder with option to lock down.
- Quota management – Pcounter free quota and account balance support
- Charge-back – supports department code selection (can be user/group associated)
- Client billing – supports client codes and sub code search and selection
- Rules based printing – print jobs can be redirected to HP MFPs
- Reporting – flexible reporting by user, code, job type and much more
- Guest users – supports accounting of Pcounter guest user printing/copying
- Flexible login options via
 - Panel
 - configurable touch screen login options
 - ID card, key fob or tag (all major card types supported)
 - Biometrics – login using finger as the identity method

KEY BENEFITS

- Secure and easy to use - reduces queues at the printer
- Flexible, configurable authentication
- Centralised, integrated accounting and reporting
- Global client code management
- Single network purse for all copy and print transactions
- Significantly reduces waste, as only verified documents are printed
- Low cost compared with external hardware devices
- No additional wiring required for simple installation
- Small footprint - low energy - environmentally friendly

Take control with Pcounter.

Scalable, network-based print management software for:

Education
Public Sector
Corporate
Finance
Professional

**Cut costs
Eradicate waste
Improve performance**
