

# Pcounter Custom Data Kit

Data Integration for Pcounter

**The Custom Data Kit (CDK) for Pcounter is a suite of 3 essential utilities designed to enable distributors, system integrators and experienced end-users to integrate Pcounter with existing information systems and business processes. CDK utilises the flexibility of the Pcounter API to substitute Pcounter built in database functions (such as User validation, User Balances, Billing codes and Print Transaction information) for virtually any custom data source. Integration 'Projects' are designed to define how Pcounter should integrate with various systems.**

A single project can maintain simultaneous connections to different data sources via a highly configurable query engine, and the scripting capabilities give the systems integrator huge flexibility.

## KEY BENEFITS

- Automated System
- Eliminates need for manual input
- Reduces IT costs
- Safer data transfer - reduces errors

## KEY FEATURES

- Seamless integration with Pcounter
- User friendly query designer
- Custom queries to validate print users
- Synchronise client code/matter number lists with Pcounter
- Transform Pcounter log print transactions into a database
- Return account balances/balance limit values
- Enhanced CDK Pcounter Popup dialogue

## DATABASE IMPORT UTILITY

The CDK Database Import tool can select data from any major SQL compliant database and automatically move this data into Pcounter.

User creation, Card\PIN association, Auto Client code assignment and Client\Sub code list upload is supported.

Queries can be created using a user friendly query designer against a wide range of popular DBMS platforms, including :

- MS SQL Server
- Oracle
- MySQL
- PostgreSQL
- Interbase
- Firebird
- Informix
- SQLite
- MS Access
- And other ANSI 92 Compatible dialects

## Take control with Pcounter.

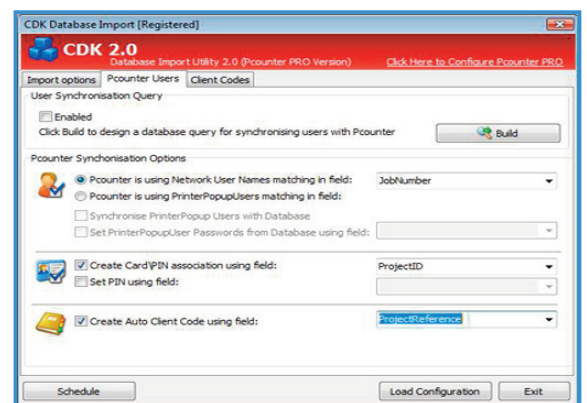

**Scalable, network-based print management software for:**

Education  
Public Sector  
Corporate  
Finance  
Professional

**Cut costs  
Eradicate waste  
Improve performance**

### Solution modules

Pcounter Core Solution  
Secure Pull Printing  
Copier Integration  
Biometric Integration  
Mobile Printing  
Reporting Suite  
Charging Systems  
Print Room Integration  
Local Printer Accounting  
Resource Planning  
Database Integration

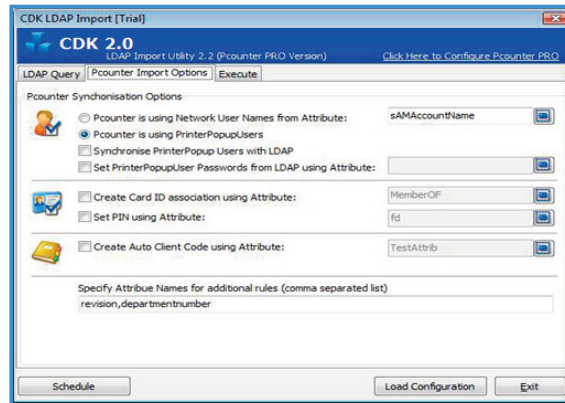

## LDAP IMPORT UTILITY

The CDK LDAP Import tool allows the creation of Printer Popup Users, Card\PIN association, Auto Client code assignment and balance update rules from any LDAP compliant directory service.

You have full control over the LDAP query and attribute list, even sub-selection of multi-string attribute types. SSL connections are also supported.

- Active Directory
- ADAM
- eDirectory
- OpenLDAP
- Apache Directory Server
- OID
- Any LDAP v1\v2 compliant directory server

**AIT Ltd are UK based providers of print & copy software, ID cards and access control solutions.**

We pride ourselves on our levels of service working closely with our customers to provide optimised solutions that offer real value for money.

We provide flexible training, onsite consultancy and installation, telephone and web-based technical support, and deployment assistance.

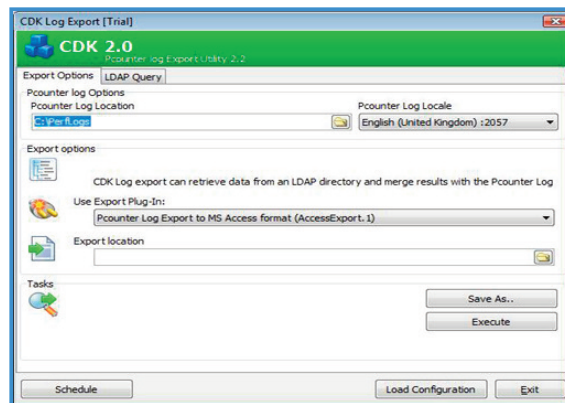

If you can't find what you need please contact our solutions team outlining your requirements and we will do our best to assist you.

## PCOUNTER LOG EXPORT UTILITY

The CDK Log Export Utility is designed to export the wealth of printing information held in the Pcounter Log files to a custom format of your choice.

Export to MS Access format is supported by default, however any feasible export type can be delivered by installing a new plug-in, which can be designed to your specification and is delivered if required under a CDK PRO licence.

- Multiple log file support
- Fast Parser
- Log Error detection
- Accurate translation of 'features' field
- Duplicate row filter
- Separation of colour\BW\Print\copy pages

## EVALUATION AVAILABLE

- Webinar overviews can be arranged
