

Smartphone Access Control

Using the latest technology the JustIN mobile solution allows smartphones to be integrated into your access control solution.

The JustIN mobile key uses the phones BLE (Bluetooth low energy) to allow doors to be opened by a smartphone. Combined with the JustIN mSVN (mobile SALTO virtual network) and the phones NFC (near field communication), the smartphone also turns into an update terminal for credentials.

JustIN mobile key uses BLE to communicate between the smartphone and the electronic door locks. The mobile key is sent 'over the air' (OTA) via the ProAccess SPACE management software to the JustIN mobile key app on a registered and verified smartphone. The phone owner will receive a message telling them they have a new key and which doors this will allow them to access. The user now only needs to present his phone to the relevant locks to gain access.

KEY BENEFITS

- Secure
- Improved user experience
- Easy to use
- Good for hotel room management
- Improved facility management
- Ideal for remote workers

KEY FEATURES

- Smartphone authentication technology for verification
- Encrypted data transfer
- Fast/highly secure data transmission
- Anti-cloning technology protection
- Online key management
- Works with iOS and Android smartphones

IDEAL FOR

Organisations wishing to take advantage of smartphone technology to secure their premises.

SPECIFICATIONS

- Smart key compatibility: DESFire EV1 (AES – 3DES encryption)
- AES 128 bit communication and secure opening procedure with key receipt securely encrypted.
- No information is stored in the Cloud, and the Cloud serves only a transit point.

AIT Ltd are UK based providers of print & copy software, ID cards and access control solutions.

We pride ourselves on our levels of service working closely with our customers to provide optimised solutions that offer real value for money.

We provide flexible training, onsite consultancy and installation, telephone and web-based technical support, and deployment assistance.

If you can't find what you need please contact our solutions team outlining your requirements and we will do our best to assist you.

EVALUATION AVAILABLE

- Pilots or proof of concept trials are available for a small area on receipt of a purchase order. Please speak to one of our solutions consultants for more information.
